

## Socket Module With Repeater

WR-6201-SMR

LIVE SIMPLE  
LIVE SMART

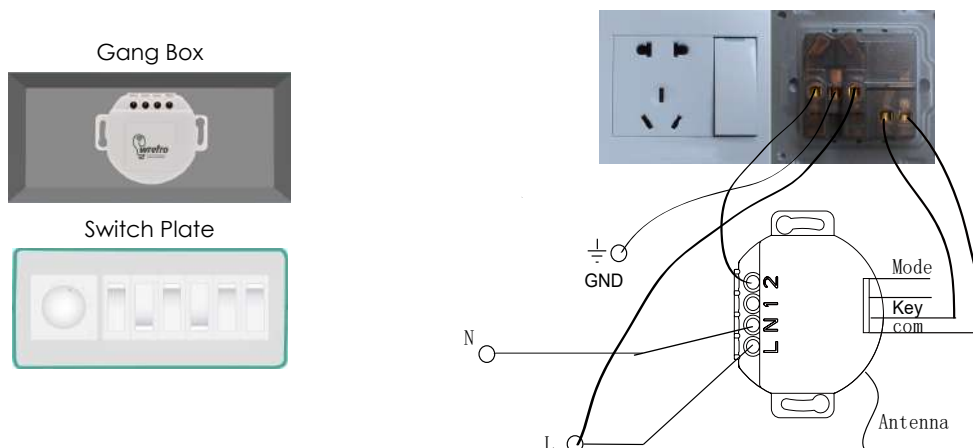

### Description

Wretro Socket module with repeater transforms traditional sockets into smart socket by connecting and installing the module with traditional switches inside the gangbox. Wretro Socket module with repeater is a four-way fully digital communication smart module which helps you to automate the traditional socket and operate appliance connected to socket. This can easily control and query the on-off state of the socket with the help of Wretro's remote and mobile app.

### Main Features

- 1) On-off control.
- 2) Maximum current: 10A .
- 3) New generation four-way communication device that can penetrate the walls with fast response speed.
- 4) High reliability and strong anti-interference capability.
- 5) Can be used with your traditional switches.
- 6) Can be used with Smart Rf remote control / App / Voice Control.
- 7) The shell is made by high quality environmental protection flame retardant materials.
- 8) The Socket module owns the built-in signal repeater through which the range can be extended up to 200 meters.

### Product Wiring Diagram

## Technical Parameters

Power Supply	110 - 250VAC
Standby Power Consumption	≤0.3W
Wireless Operating Frequency	433MHz
Wireless Transmit Power	~10dbm
Wireless Receiving Sensitivity	≤-105dbm
Maximum Load Current	≤ 10A
Mounting Box Size	>77mm*77mm*45mm Please test before installation
Working Temperature	0 ~ 60°C
Environment Humidity	≤80% (Non-condensing)
Dimensions (L * W * H)	Without Ears: 51.5mm*52mm*23.5mm With Ears: 67mm*52mm*23.5mm
Weight	60g

## Notice

- 1) Please hire professional electrician to install or disassemble the switches.  
The power must be cut off before installing or disassembling.
- 2) The switches are forbidden to be installed in outdoors and other humid environments.
